

023. **Vaattovaara, M., and J. Enback,** Development of a calibration system using a monochromator and an APD. *IRF Internal Note 023*, November 1993.
Examensarbete
 024. **Nilsson, L.,** OPERA. Operations program for ALIS. Version 2.0. *IRF Internal Note 024*, January 1994.
Examensarbete
 025. **Gustavsson, B.,** A preliminary investigation of local variations in water vapour content for seven stations in Northern Scandinavia. *IRF Internal Note 025*, February 1994.
 026. **Nykyri, K.,** NICT, Neural network image classifier for TICS. *IRF Internal Note 026*, May 1994.
Examensarbete
 027. **Pandel, D.,** Compression of particle data measured by the TICS instrument on the Freja satellite, *IRF Internal Note 027*, October 1994.
Examensarbete
 028. **Lidström, S.,** Spectral analysis of Thomson scattering spectra from mesopause altitudes in the polar atmosphere. *IRF Internal Note 028*, December 1994.
Examensarbete
 029. **Makulerad (Gustavsson, B.)**
 030. **C:son Brandt, P.,** Simulation of a 3-D ion mass spectrometer, *IRF Internal Note 030*, 1994.
Examensarbete
- (Vid utgivningen fanns rapporten inte med i någon av våra serier och döptes till Internal Note 030 i efterhand)
031. **Nilsson, M.,** Control of turntable in satellite instrument calibration system, *IRF Internal Note 031*, September 1996.
Examensarbete
 032. **Thorstenson, J.,**
Examensarbete
 033. **Hyvönen, P.,** Freja observations of solar UV-radiation and atmospheric UV-absorption, *IRF Internal Note 033*, June 1996.
Examensarbete
 034. **Wallman, S.,** Preparation of a visual user-interface for a global database containing satellite and ground based geophysical data, *IRF Internal Note 034*, October 1996.
Examensarbete
 035. **Karlsson, P.,** Production of a database for magnetospheric modelling, *IRF Internal Note 035*, October 1996.
Examensarbete
 036. **Nilsson, A.,** Height calibration for ESRAD, *IRF Internal Note 036*, June 1997.
Examensarbete
 037. **Tjulin, A.,** Kinetic theory of waves in plasmas with simple-pole distributions, *IRF Internal Note 037*, January 1999.
Examensarbete
